Final Report

Chapter 1

- Need for an audience description was discussed by group
- The areas of findings and objectives should be compiled by all of the research team, not just one person
 - Much of this can be found in past documents, such as the proposal

Chapter 2

- Need for a summary section was discussed

Should include our draft outline with the next quarterly report (Adams)

Adams needs a copy of the evaluations from the Milwaukee meeting

AADT plotting being done by UIC was discussed at length, resulting in cooperation by Kawamura and the Toledo representatives. The method used would overlay the AADT data onto the highway network, and then assign that data to the network. (?)

Adjourn (12:25pm Central)

Next conference calls planned for Wednesday, April 21, 10-11am Central and Thursday, May 6, 11-12:30pm Central.
